DETAILED ACTION

Claim Objections

Claims 9,15-20 are objected to because of the following informalities: In claim 9 line 6, and claim 15 line 6, "it" lacks proper antecedent basis as it is unclear what "it" is referring to. In claim 9 lines 8-9, "a top and a bottom" lack proper antecedent basis since antecedent basis for a frame top and bottom has already been established in line 1 and it is unclear if applicant is referring to the previous top and bottom, or attempting to claim a different top and bottom. In claims 15 line 2 and claim 16 line 2, "the top of the frame" lacks proper antecedent basis. In claim 19 line 6, "the tops of the vanes" lacks proper antecedent basis. Appropriate correction is required.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the tractor (claims 10 & 20) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate

changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 5-10, 15-20 are allowed.

Response to Arguments

Applicant's arguments, filed 11/17/05, have been fully considered. Applicant, however, does not appear to have addressed all of the previous claim and drawing objections, which have been maintained as set forth above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
